

EXPLORE LA PROVENCE

TREKKING IN THE HINTERLAND

Gathered between the Var valley to the east and the Loup canyon to the west, the hills and hinterlands of Vence are home to picturesque villages, nestled atop natural elevations, and rich with over 1000 years of history.

The vineyards, hedged by oak and olive forests, perpetuate a culture and lifestyle inherited from the Romans. To the north, imposing chalk cliffs protect the Vence region from cold north winds.

There are many walking circuits in the countryside around Vence, ranging in duration and difficulty. Please ask us for full information on the different circuits we recommend.
